

API MANAGEMENT STRATEGY ACCELERATOR ADVANCED WORKSHOP

Accelerate your API management strategy. This comprehensive and consultant-led workshop will provide the conception and development of an advanced API Management strategy. Save months of learnings and costly false starts by empowering your teams to take advantage of a purpose built workshop. By the end of the workshop, participants will have a solid understanding of the Azure API, target landing zone and actionable steps to implement a modern API strategy with confidence.

InCycle's API Management Workshop addresses **5 key areas required to develop a successful APIM strategy**. Every element is designed to hone in on and accelerate project success. The intensive workshop goes beyond fundamentals to provide an actionable strategy and roadmap designed to match your business objectives. Optional target PoC is also available.

WORKSHOP GOALS

1. Learn about APIM fundamentals and Azure API best practices, including standards and compliance.
2. Understand basic operating needs around securing and monitoring APIs.
3. Learn how to onboard, manage subscriptions and portal access.
4. Review API development practices including branch polices, service integration, pipelines and code promotion.
5. Discover SLAs, support models, and ideal team structures
6. Establish strategy and roadmap
