

MODERN ENTERPRISE & CLOUD GOVERNANCE ACCELERATOR

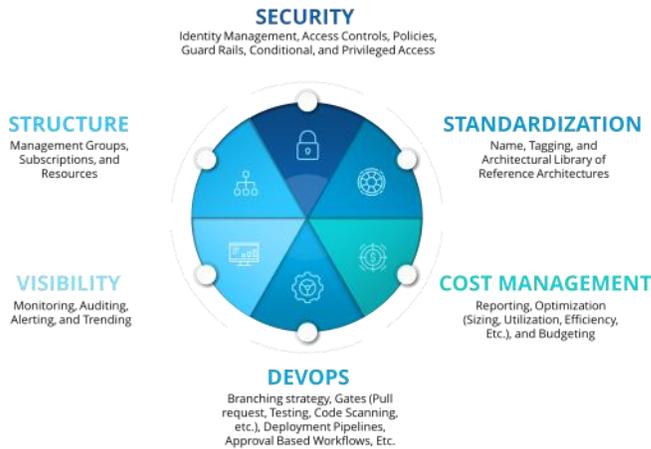

A better way

Enabling governance for modern IT organizations.

Are your current governance patterns and practices hindering the ability of your teams to innovate rapidly? Do you have the right guard rails in place to empower teams to deliver in a consistent and secure manner? Accelerate the modernization of your cloud governance by using InCycle's proven strategy and tools.

InCycle's governance accelerator provides the **key components required for a modern, cloud enabled, successful governance implementation**. The packaged service provides predefined and reusable assets for the rapid and optimized implementation of your governance objectives.

Dimensions and patterns for governance implementation

UNLOCK VALUE

ACCELERATE & EMPOWER

Provide your team modern governance practices and tools and watch your deployment and development accelerate! Enable appropriate control of cloud resources that empower developers, yet maintains sufficient and measured management.

COST CONTROLS

No more surprises. Get a handle on costs, consumption by resource, team, project etc.

SECURITY GUARDRAILS

Ensure security requirements and practices are applied consistently across your infrastructure and cloud footprint.

MAINTAIN VISIBILITY

Monitoring, auditing, and alerting are important for making timely and sound decisions. They are also important to ensure target behaviors and practices are maintained.

GOVERNANCE ACCELERATOR & STRATEGY IMPLEMENTATION

PRIORITIZED BACKLOG OF GOVERNANCE OBJECTIVES

1- DISCOVER

- Review context & drivers
- Finalize target governance objectives scope

FOR EACH OBJECTIVE

2- DEFINE

- Analyze objective against governance dimensions and patterns
- Design and plan
- Establish metrics for success

3- PILOT

- Automate and deploy
- Validate effectiveness

4- ADOPT

- Optimize based upon pilot results
- Perform enterprise rollout
- Revise and iterate

"Cloud governance was impeding our ability to innovate. Our engineering teams were eager to advance, only we weren't ready to support them. InCycle helped us quickly implement cloud governance and immediately accelerated our development".
